SPOTLIGHT ON INGOTS & BILLETS

Supplying ingots, as well bingots and billets produced from ingots above is our core. All the ingots, bingots and billets are produced and directly supplied by our official partner mills (*), along with our dedicated key account service. This grants a short supply chain, with top quality, cost-effective pricing and fast & customized service.

(A.F. Trading S.r.l. is official intermediary of manufacturing mills for Ni & Co Alloys and Titanium)*
